

I want to voice my opposition to the proposed broadcast ownership changes. It sounds like this would allow the "rich & powerful" few to own most of ALL media (newspapers, TV, radio, satellite etc), and I strongly disagree with this. I want and demand the right to have a variety of viewpoints available to me. Especially in this time of war & uncertain economic outlook of this country. I find myself questioning everything that comes out of the government these days, and the fact that Colin Powell's son is heading this effort up just gives me more & more concern & distrust of the government's involvement in this issue. We NEED to STOP the "Big Wigs" from gaining more air power. The powerful few are coming out of government, military, business, politics, etc etc etc. TOO much power in TOO little hands. Give it BACK to the people & let competition drive the companies to provide local people the information they need and deserve.

Thanks for the chance to comment on this important issue.
